Eye health: partnering with the Optometrists of NB

CANB's executives met with the president of the Optometrists Association of New Brunswick to coordinate our efforts to support our clients and their patients' overall eye health.

The meeting was positive and the optometrists expressed appreciation for our regulated profession. They wanted to encourage eye lash technicians to continue to promote good eye health and hygiene including regular cleansing of the eye area.

The optometrists were also excited about the opportunity to host an educational session for our members – stay tuned for details!
